Leaseback, short for "sale-and-leaseback", is a financial transaction in which one sells an asset and leases it back for the long term; therefore, one continues to be able to use the asset but no longer owns it. The transaction is generally done for fixed assets, notably real estate, as well as for durable and capital goods such as airplanes and trains. . The concept can also be applied by ...

Substance over form is an accounting principle used "to ensure that financial statements give a complete, relevant, and accurate picture of transactions and events". If an entity practices the 'substance over form' concept, then the financial statements will show the overall financial reality of the entity (economic substance), rather than the legal form of transactions (form).

In our discussion of APV, we contemplated a single round of investment staged over two years (i.e. an initial investment by the VC in Year 0 followed by another investment in Year 1). However, entrepreneurs often raise capital in multiple rounds of financing, so that they can take advantage of higher pre-money valuations at each subsequent round.
