least developed countries pdf

The Least Developed Countries (LDCs) is a list of developing countries that, according to the United Nations, exhibit the lowest indicators of socioeconomic development, with the lowest Human Development Index ratings of all countries in the world. The concept of LDCs originated in the late 1960s and the first group of LDCs was listed by the UN in its resolution 2768 (XXVI) of 18 November 1971.

A developing country (or a low and middle income country (LMIC), less developed country, less economically developed country (LEDC), or underdeveloped country) is a country with a less developed industrial base and a low Human Development Index (HDI) relative to other countries. However, this definition is not universally agreed upon. There is also no clear agreement on which countries fit ...

Safety and legality • Induced abortion is medically safe when WHO-recommended methods are used by trained persons, less safe when only one of those two criteria is met, and least safe when neither is met. • Of the 56 million induced abortions that took place each year during 2010–2014, an estimated 25 million (45%) were unsafe.

Induced Abortion Worldwide | Guttmacher Institute

Most separated families have a legal right to family reunion that is just slightly favourable for their and their families' integration. Newcomers can secure their family life as the starting point for their integration under the procedures in traditional countries of immigration, most Northern European countries and new countries of labour migration (e.g. IT, PT, ES).
