From a physics perspective, living beings are thermodynamic systems with an organized molecular structure that can reproduce itself and evolve as survival dictates. Thermodynamically, life has been described as an open system which makes use of gradients in its surroundings to create imperfect copies of itself. Hence, life is a self-sustained chemical system capable of undergoing Darwinian ...

Night of the Living Dead is a 1968 American independent horror film written, directed, photographed and edited by George A. Romero, co-written by John Russo, and starring Duane Jones and Judith O'Dea. The story follows seven people who are trapped in a rural farmhouse in western Pennsylvania, which is besieged by a large and growing group of "living dead" monsters.
