A major transition often implies a change in the way in which information is transmitted between generations. According to May nard Smith and Szathmary, increased complexity depends on a rather small number of such major transitions. Examples for major transitions are listed in Table 13.2.

13. The major transitions in evolution

The 'major transitions in evolution' refer to the transitions from solitary. †To contact the author, please write to: Department of Philosophy, University of Bristol, 9 Woodland Road, Bristol, BS8 1TB United Kingdom; e-mail: samir.okasha@bris.ac.uk.

Multilevel Selection and the Major Transitions in Evolution

The major transitions in evolution, in particular, involve radical changes in developmental, ecological and reproductive organisations that instantiate variation, selection and inheritance at a ...

The evolution of information in the major transitions

The Major Transitions in Evolution is a book written by John Maynard Smith and Eörs Szathmáry (Oxford University Press, 1995). At the time of its publication, Egbert Giles Leigh, Jr reviewing for Evolution commented that it "may be the most important book on evolution since [R.A.] Fisher's (1930) The Genetical Theory of Natural Selection".

The Major Transitions in Evolution - Wikipedia

The contributors discuss different frameworks for understanding macroevolution, prokaryote evolution (the study of which has been aided by developments in molecular biology), and the complex evolution of multicellularity.
