areas of science. Even different areas of mathematics (say, algebra and smooth dynamics) have a very different feel. I shall in what follows try to understand the mathematician's brain. This is not at all because I find mathematics more interesting than physics and biology. The point is that mathematics may be 2

99×14 . The weak mathematician would solve this by applying the normal algorithm for long multiplication: $99 \times 14 = 396 + 990 = 1,386$. This gives the correct answer, of course. The better mathematician would see that 99×14 is equivalent to $(100-1) \times 14$, and by a distributive law, to $(100 \times 14) - (1 \times 14)$, which is easy to work out.
