The Matrix is a science fiction action media franchise created by The Wachowskis, about a group of heroes who fight a desperate war against machine overlords that have enslaved humanity in an extremely sophisticated virtual reality system. The series is most notable for its use of slow motion, which revolutionized action films to come. The series began with the feature film The Matrix (1999 ...

2.1 Vector-Vector Products Given two vectors $x, y \in \mathbb{R}^n$, the quantity $x^T y$, sometimes called the inner product or dot product of the vectors, is a real number given by $x^T y = x_1 y_1 + x_2 y_2 + \dots + x_n y_n = \sum_{i=1}^n x_i y_i$. Observe that inner products are really just special case of matrix multiplication.
